PROFESSIONAL SUMMARY

Results-driven Agentic AI & Automation Engineer with 1.5+ years of hands-on experience designing and deploying production-ready multi-agent systems, context-aware RAG assistants, and cross-platform workflow automations. Proven expertise in multi-agent orchestration using n8n and LangChain to build scalable AI pipelines, integrate recruiter CRM & ATS systems, eliminate manual overhead, and optimize enterprise operations.

SKILLS

Agentic AI & Orchestration: Multi-Agent Systems, Workflow Orchestration (n8n, Make.com), LangChain, LangGraph, RAG, LLMs, Vector Databases, Semantic Search, Hugging Face, NLP

Programming & Data: Python, SQL, Fast APIs, REST APIs, Webhooks, Git, GitHub, PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, Data Parsing & Transformation

Integrations & Ecosystem: StaffHive CRM/ATS, Notion API, Google Sheets API, Slack API, Mattermost, QUO API, Streamlit

EXPERIENCE

AI & Automation Engineer – Axxess TMS

Jan 2026 – Present

Remote

Calgary, Alberta, Canada

- Architected a multi-agent sales automation and lead outreach pipeline utilizing n8n and CRM webhooks, reducing manual outreach overhead by over 80%.
- Engineered the AI recruitment core for StaffHive CRM/ATS, implementing multi-agent workflows to automate SMS screening interviews via QUO API, candidate evaluation, and automated reporting in Mattermost.
- Collaborated directly with non-technical stakeholders (recruiters and HR teams) to identify daily bottlenecks, translating operational struggles into automated AI workflows.
- Designed a context-aware RAG assistant with dynamic SQL query generation, allowing recruiters to instantly query ATS/CRM database records and reducing candidate search times.
- Established standardized error-handling, fallback, and alert systems for all AI agents, ensuring 99.9% uptime for production automation workflows.

AI Automation Engineer – Buildables

Jul 2025 – Present

Remote

Pakistan

- Architected end-to-end automation pipelines integrating Notion, Google Sheets, and Slack APIs to streamline onboarding workflows.
- Designed multi-pathway candidate evaluation and lifecycle orchestration systems in n8n for 6 distinct educational programs.
- Deployed 13+ advanced n8n automation workflows featuring complex branching, real-time sync, and error handling to manage 100+ applicants monthly.
- Portfolio Repository** — Showcases the extensive n8n automation pipelines and architectural integrations built for this role.

AI Intern – Siber Koza (NASTP)

Apr 2025 – Jun 2025

Artificial Intelligence Department

Rawalpindi, Pakistan

- Developed a real-time voice-based customer assistant at NASTP using LangChain, OpenAI API, and RAG architectures, achieving high accuracy in intent detection.
- Built conversational LLM agents featuring robust session memory, semantic similarity matching, and multi-turn dialog state tracking.
- Implemented NLP pipeline utilizing BERT embeddings and LSTM networks for unstructured text classification and JSON data parsing.

PROJECTS

AI Voice Assistant for Restaurant

LangChain, RAG, Python, OpenAI API

- Built a context-aware voice assistant utilizing Whisper STT/TTS and LangChain to process voice orders, decreasing transaction handling time by 40%.
- Enhanced customer interaction through dynamic response generation and knowledge-based queries.

AI Knowledge Assistant – RAG Chatbot

LangChain, Groq API, Pinecone, Streamlit

- Developed a responsive RAG chatbot answering complex ML/AI queries, using Groq API (Llama 3.1), Pinecone vector database for semantic retrieval, and Streamlit for the user interface.
- Built Streamlit UI with session memory, prompt control, and context awareness.
- Live Demo** — deployed version demonstrating retrieval and dynamic context understanding.

EDUCATION

National University of Modern Languages (NUML)

2022 – 2026

BS in Artificial Intelligence

Islamabad, Pakistan

- Graduated with 3.1 CGPA.
- Serving as **Lead at Google Developer Groups on Campus (GDG on Campus)** — organizing tech events, fostering collaboration, and developing leadership and communication skills.

CERTIFICATES

- **Google AI Essentials Specialization** – *Coursera*
(Includes: Introduction to AI, Maximize Productivity with AI, Discover the Art of Prompting, Use AI Responsibly, Stay Ahead of the AI Curve)
- **SQL Basics** – *HackerRank*
- **SQL Intermediate** – *HackerRank*
